Core Competencies

Data Analysis, MIS Reporting, Dashboard Automation, SQL Querying, Process Optimization, Analytical Thinking, Communication, Data Governance, Business Intelligence Reporting, AI-Powered Automation

Professional Experience

MIS Analyst | Frankfinn Pvt. Ltd. | Gurgaon |

April 2025 – Present

- Automated complex management reports using **Excel VBA, Power Query, and advanced formulas**, reducing manual effort by 70% and improving reporting efficiency.
- Designed and maintained **dynamic dashboards** for real-time tracking of training, delivery, and operational performance across multiple centers.
- Developed **custom VBA macros and automation tools** to streamline repetitive tasks, improving overall productivity and turnaround time.
- Created **Outlook automation workflows** for conditional email dispatch, ensuring timely communication with stakeholders.
- Managed large-scale data processing, ensuring **data accuracy, consistency, and standardization** across departments.
- Collaborated with cross-functional teams (Training, Operations, Management) to deliver **data-driven insights and performance reports**.
- Improved reporting structure and reduced data errors by implementing **validation checks and automated data pipelines**.
- Generated **weekly, monthly, and ad-hoc reports** for senior management to support decision-making.

1. Pan India Training & Delivery Dashboard

- Developed a **Pan India centralized reporting dashboard** to track training and delivery performance across multiple centers.
 - Created an interactive **pendency tracking system**, where center-wise data updates dynamically based on selected inputs.
 - Designed smart filters and date selection options to allow users to **view data for specific timelines (daily, weekly, monthly)**.
 - Built a **summary dashboard for top management**, providing clear insights and justification for each report.
 - Enabled real-time visibility of **center-wise performance, pending tasks, and operational gaps**.
 - This dashboard was regularly shared with **head management for strategic decision-making**.
-

2. Faculty Utilization & Performance Report

- Designed a comprehensive **Faculty Utilization Report** covering trainers across India.
 - Analyzed trainer performance based on **daily, weekly, and monthly slot utilization**.
 - Tracked planning vs actual execution to identify **efficiency gaps and underutilization**.
 - Provided insights into **slot allocation, scheduling efficiency, and trainer productivity**.
 - Helped management optimize **resource planning and training delivery effectiveness**.
-

3. Student Attendance & Letter Dispatch Tracking System

- Developed a centralized **Student Tracking & Letter Dispatch Management System** to address absenteeism issues.
- Created a master database to track:
 - Number of letters dispatched
 - Delivery status (In Transit, Delivered, Returned, Missing)
 - Student response and attendance after dispatch
- Ensured **100% data accuracy** by implementing structured tracking and validation.
- Monitored post-dispatch outcomes to evaluate **student engagement and attendance improvement**.
- Managed data uploads and tracking across systems/servers for complete visibility.
- Provided detailed reports to management for **decision-making and corrective actions**.

MIS Executive | Fleetx Technologies | Gurgaon |

Nov 2024 – April 2025

- Prepared daily/weekly/monthly MIS for clients (Adani, Wheelseye).
- Automated dashboards for fleet performance & fuel analysis.
- Used SQL & Power Query for GPS data extraction.
- Automated repetitive tasks using VBA & Google Apps Script.
- Coordinated with tech teams to enhance data accuracy and workflow efficiency.
- Generated trend-based insights for management review.

Operations & MIS Executive | Cars24 | Gurgaon |

Oct 2023 – Nov 2024

- Managed RTO processing & daily operations MIS.
- Maintained large-scale reporting with Excel & Google Sheets.
- Automated recurring reports to reduce turnaround time.
- Supported daily operations with performance tracking dashboards.
- Improved reporting accuracy and streamlined data flow between teams.

Web Development Intern | Roots PS Softech | Gwalior |

Apr 2022 – Sep 2022

Worked on responsive UI using HTML, CSS, JavaScript, React.js.

- Integrated APIs and improved website performance.
-

Achievements

- ✓ Automated complex MIS dashboards with VBA & AI integration.
